

ARGOS InstaVision Alignment System

ARGOS InstaCheck Alignment System

Did You Know?

Approximately 60% of vehicles checked are out of specification and need an alignment. An average alignment generates about \$90 in revenue. In addition, over 38% of vehicles that need an alignment require undercar related services adding additional profits to your shop.

Current Alignment Business Example

Current Daily Alignments **5** x Shop Charge **\$90** = Daily Revenue **\$450** x Profit Rate **72%**

Additional ARGOS Check Example

Vehicles Per Day **48** x Estimated Failure Rate **60%** = Additional Daily Opportunity **+10** x Your Customer's Acceptance Rate (avg) **40%**

Current Daily Profit **\$324**

Additional Alignment Opportunities **\$648**

Daily Revenue **\$972**

Weekly (5.5 days) Revenue **\$5,346**

Monthly Revenue **\$21,384**

Yearly Revenue **\$256,608**

ARGOS Alignment Systems

Feature	ARGOS Alignment System	ARGOS Check System
Complete readings for adjustment	Yes	Yes
Instantly validate pass/fail vehicle specs	No	Yes
Reading in 5 seconds	Yes	Yes
Patent multipoint self calibration	Yes	Yes
Works with black and dirty rims	Yes	Yes
No moving parts	Yes	Yes
Remote technical support	Yes	Yes

THE REVOLUTIONARY CEMB ARGOS TOUCHLESS 4-WHEEL ALIGNMENT SYSTEM ACQUIRES MEASUREMENTS IN JUST 5 SECONDS.

HOW IT WORKS

ARGOS InstaVision uses a patented* structured light 3D scanner system to project invisible laser patterns onto all four wheels. Each wheel is measured with pin-point accuracy in space to determine camber and toe values to a level of accuracy and repeatability never before available.

Determining the exact angle of each wheel in relation to the others, gives the 4-post stationary system its ability to calculate with extreme accuracy. Picture perfect measurements are guaranteed.

*Patent US9791268B2 (other patents pending)

FEATURES

- Instantaneous 5-Second Measurements.
- All Measurements Without Leaving the Vehicle
- No Wheel Clamps or Electronics at the Wheels
- No Opportunities for Operator Error
- No Moving Parts
- Automatic Self-Calibration

ARGOS IS AVAILABLE AS A 4-WHEEL ALIGNMENT SYSTEM OR ALIGNMENT CHECK SYSTEM

ARGOS INSTAVISION ALIGNMENT SYSTEM

- No Set Up or Steps Around the Vehicle
- Pin-Point Accuracy
- Extremely Repeatable Measurements
- Tablet Control From the Vehicle Included
- 20+ Year Database and Customization Capability
- VIN Number Bar Code Database Entry
- WIFI Lifetime Firmware, Software and Vehicle Spec Updates, Off-Site 24/7 Internet Performance Monitoring

ARGOS INSTACHECK SYSTEM

- Identify Potential Wheel Alignment Sales
- Instantly Validate **Pass/Fail** Vehicle Specs
- No Set Up or Steps Around the Vehicle
- Check Only Software and Customer Print-Out
- 25-50% Less Drive Area Than Clamp Check Systems
- Does Not Require Drive-Through Operation.
- Fits In Most Service Bays.
- WIFI Lifetime Firmware, Software and Vehicle Spec Updates, Off-Site 24/7 Internet Performance Monitoring
