

TORUK

High-Performance Leverless Center-Clamping Tire Changer

The CEMB TORUK is designed for high-volume shops that demand productivity without compromising wheel integrity. The TORUK can handle the toughest rim and wheel combinations up to 30" for cars, SUV's and light trucks. The patented Dynamic Tool Head provides contact-free mounting and demounting with unmatched rim protection. Ergonomic designed control console and built-in wheel lift increase tire changing speed and ease of operator use.

KEY FEATURES

- Patented Dynamic Tool Head with front and rear levers
- Automatic Center-Post positioning to Tool Heads
- Variable-Speed, 0 – 16 rpms motor for exact control
- Intuitive multifunctional control console for easy operation
- Built-in front loading wheel lift
- Laser Pointer to position Dual-Roller Bead Breaking arms

PATENTED DYNAMIC TOOL HEAD: Two-in-one system designed to allow one lever to pull the bead over the rim edge without damage and the second lever enables precise mounting of the top bead.

DIMENSIONS

Power Supply:	1.5 kW - Inverter 230V 1Ph
Max. Wheel Diameter:	47" (1200 mm)
Max. Wheel Width:	15" (380 mm)
Bead breaker force:	12000 N
Turntable speed:	0-16 rpm (inverter)
Operating pressure:	8-10 bar 115-145 PSI
Net weight:	815.71 Lbs (370 kg)

Office: +1 678-717-1050
