

DWA 3500

3D HD WHEEL ALIGNMENT FOR CAR AND LIGHT TRUCK

3D-HD wheel aligner with movable camera
automatically adjustable with lift height

CEMB

DWA 3500

ADVANCED SOFTWARE

Wheelbase, track and diagonal measurements to prevent damage from accidents

Wheel diameter measurements to verify correct pressure **Single raised wheel run-out** for smaller workspaces or lifts with stairs

Measurements with 2 targets for long vehicles **Caster angle and friction range measurements**

Audit Function: identification of driving problems, resulting from measures not contemplated in the specifications to support the regulation service

Movable cameras automatically adjustable with lift height **Quarterly updates of the data bank** for clear, rapid selection of different versions of vehicles **Frontal assistance video camera** to help get onto the lift

TARGETS

 **Compact Targets** with no electronics and batteries

CABINET

Ergonomic design and easy accessibility during maintenance operations
Industrial computer with Windows 10 and SSD memory, without moving disks more likely to break
WiFi connection for automatic software updates

STANDARD with 43" monitor PIT with double monitor (27" and 21") to ease the adjustment in pit

STANDARD: Fixed cabinet **OPTION:** (Trolley kit to move cabinet together with column)

STANDARD CONFIGURATION

Premium turntables: capacity 1000 kg per plate, diameter 35 cm, with rubber supports
